Education

B.E. (Hons.) Mechanical Engineering *Birla Institute of Technology and Science, Pilani* **Oct 2022 – June 2026**
– Relevant Coursework: Manufacturing Management, Econometric Methods, Derivatives, Risk & Management, Microeconomics

Work Experience

Product Management Intern, Zenskar **Bangalore April 2026 – Present**

- Led **product discovery** and authored **PRD for milestone-based billing**, syncing event data from **CPQ tools** to auto bill on completion; complete and in **QA**, shipping **2 weeks** ahead of commitment, **6 weeks** before go live for **Darwinbox**
- Completed discovery and solutioning for two native billing features, **late fees** and **payment surcharge pass through**, addressing a prominent ask from **Incognia** and unblocking onboarding for **Luma Labs**, both moving into development
- Own **field mapping design** for an AI agent syncing **QuickBooks** and **Zenskar** objects, defining field to field mappings and identifying missing mandatory fields, such as **income account** at the product level, needed to align with ERP standards
- Owned posting of **product updates** after every sprint, built a pipeline using **GitHub GraphQL CLI**, **ClickUp MCP**, & **Claude API**, successfully running for **8 sprints**, enabling timely updates for CS, Sales, GTM & Marketing teams.
- Analyzed **PostHog** session recordings and dashboards to understand **power users' behavior**, surfacing drop-off points & friction in key user journeys, informing feature prioritization and flagging integration gaps for the roadmap.

Product Management Intern, Unity Growth Fund **Visakhapatnam June 2025 – Dec 2025**

- Drafted **PRD** and built **proprietary training datasets** for development of a **LLM powered chatbot** using a **local RAG architecture**; collaborated with engineering to deploy the solution, reducing inbound support queries by **50%**.
- Built a **fund analytics dashboard** tracking **12+ metrics**, cutting analysis time by **40%** and improving decisions on investor behavior.
- Owned UI design for **Multi-Asset Fund** and overhauled the **firm's website**, translating requirements into high-fidelity screens.

Summer Intern - Business Analysis, Grasim Industries **Remote May 2024 – July 2024**

- Processed and cleaned **daily operational log datasets** (fixing missing/incorrect entries) and generated visual reports on **6 core metrics** using Matplotlib and Seaborn to support the dashboard team's weekly trend analysis.

Projects

Review Insights System for a D2C App | Live Demo *Product Build*

- Product teams skim hundreds of raw reviews and feedback manually; built a system turning them into **insights and alerts**.
- Shipped a live **MVP** that ingests **475 Play Store & App Store** reviews of a D2C app, , splits each into mentions tagged by product area and one of **57 themes** (problem, request, praise), with every quote verified word for word against the review.
- Flags **critical reviews** & edge cases with **email alerts** to CS; one click copies any review as an **MD ticket** with quotes & context.

Customer Behavior Analysis, RetailRocket | Github Repo *Data Analytics*

- Built a **2.75M+** row analytics pipeline in **MySQL**, achieving **91.6%** category enrichment across 3 tables for robust product decisions.
- Diagnosed **97.4%** view-to-cart drop-off & **27%** WAU decline via **funnel & cohort analysis**, surfacing roadmap prioritization insights.
- Designed **Power BI dashboard**; exposed **15x** conversion variance across categories for data driven feature prioritization.

MVP for a Mental Health Wellness App | Prism *Product Strategy Case Study*

- Led **primary research** identifying "severity uncertainty" as core barrier; scoped MVP to bridge self-help and clinical therapy gap.
- Built **MVP roadmap** prioritizing Mood Tracker with Insights; designed **high-fidelity prototypes** with gamified disclosure loop.
- Defined **metrics framework** with data instrumentation plan for cohort analysis; formulated **GTM strategy** via freemium loops.

Position of Responsibility

Public Relations & Publicity Head, Quark, Revenue & Growth **May 2024 – Apr 2025**

- Directed a **53-member team** across PR, design, and publicity; ran Meta ad campaigns to drive event awareness and ticket conversions
- Owned end-to-end ticketing, negotiating with colleges & stakeholders to drive **INR 70 Lakhs** (9.4% YoY growth) in sales.
- Spearheaded Campus Ambassador website launch, defined **functional requirements** with tech & design teams, collaborated to ensure timely delivery, scaling the program to **400+ CAs** across institutions and driving brand penetration.

Skills

- **Tools:** Figma, PostHog, Google Analytics, MySQL, Mixpanel, n8n, Claude Code, Lovable, Power BI, Excel (Advanced), Jira
- **Product Management:** PRD Creation, Product Development Lifecycle, Wireframing & Prototyping, A/B Testing, Root Cause Analysis, Product Strategy, Prioritization, User Research, Technical Writing, Agile Methodologies
- **Technical:** Python, SQL, REST APIs, Webhooks, System Architecture, Workflow Automation, RAG, Prompt Engineering
- **Data & Analytics:** User Segmentation, Funnel Analysis, Cohort Analysis, Metrics Definition, Data Visualization
